

- Effective with the 2023-2025 term, NGC is requiring all Award Applications to be sent electronically. Central Region will follow their lead. Because the NGC theme is GO GREEN-PLANT AMERICA, we are encouraging all members to submit electronic entries rather than use up more of our natural resources.
- If you are unable to submit a Central Region entry electronically, please contact the CR Awards Chair prior to submitting. The following guideline should be followed:
 1. Application is limited to three pages, front of pages only. No report cover, binder or plastic sheets. (for manual submission) CR Application is page one.
 2. Give a brief summary of the project, including photos, letters, financial information, publicity or other supporting data.
 3. Photos may be attached to pages (manual submission) or inserted electronically.
 4. Keep a copy for your records, as the application will not be returned.
- Send the completed three pages electronically to:
Central Region Awards Chairman, Kerry Krokos at Krokos.L4030@sbcglobal.net
- If you need to send by mail, send to:
Central Region Awards Chairman, Kerry Krokos
